Packing List

Before setting up your product, please make sure the following items have been shipped:

ltem	Quantity
System kit	1
19V / 90W(65W) adapter	1
HDD screw, M3 x 8L	4
Power cord (May vary based on local distribution)	1
SATA Cable	1
Exsiccator (10g)	1
Thermal pad for HDD	2
Thermal pad for DIMM2	1

If any of these items are missing or damaged, please contact your distributor or sales representative immediately.

About this Document

This User's Manual contains all the essential information, such as detailed descriptions and explanations on the product's hardware and software features (if any), its specifications, dimensions, jumper/ connector settings/definitions, and driver installation instructions (if any), to facilitate users in setting up their product.

Users may refer to the GIGAIPC.com for the latest version of this document.

Please read the following safety instructions carefully. It is advised that you keep this manual for future references

- 1. All cautions and warnings on the device should be noted.
- 2. Make sure the power source matches the power rating of the device.
- 3. Position the power cord so that people cannot step on it. Do not place anything over the power cord.
- 4. Always completely disconnect the power before working on the system's hardware.
- 5. No connections should be made when the system is powered as a sudden rush of power may damage sensitive electronic components.
- 6. If the device is not to be used for a long time, disconnect it from the power supply to avoid damage by transient over-voltage.
- 7. Always disconnect this device from any AC supply before cleaning.
- 8. While cleaning, use a damp cloth instead of liquid or spray detergents.
- 9. Make sure the device is installed near a power outlet and is easily accessible.
- 10. Keep this device away from humidity.
- 11. Place the device on a solid surface during installation to prevent falls
- 12. Do not cover the openings on the device to ensure optimal heat dissipation.

- 13. Watch out for high temperatures when the system is running.
- 14. Do not touch the heat sink or heat spreader when the system is running
- 15. Never pour any liquid into the openings. This could cause fire or electric shock.
- 16. As most electronic components are sensitive to static electrical charge, be sure to ground yourself to prevent static charge when installing the internal components. Use a grounding wrist strap and contain all electronic components in any static-shielded containers.
- 17. If any of the following situations arises, please the contact our service personnel:
 - i. Damaged power cord or plug
 - ii. Liquid intrusion to the device
 - iii. Exposure to moisture
 - iv. Device is not working as expected or in a manner as described in this manual
 - v. The device is dropped or damaged
 - vi. Any obvious signs of damage displayed on the device

18. DO NOT LEAVE THIS DEVICE IN AN UNCONTROLLED ENVIRONMENT WITH TEMPERATURES BEYOND THE DEVICE'S PERMITTED STORAGE TEMPERATURES (SEE CHAPTER 1) TO PREVENT DAMAGE.

FCC Statement

This device complies with Part 15 FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received including interference that may cause undesired operation.

Caution:

There is a danger of explosion if the battery is incorrectly replaced. Replace only with the same or equivalent type recommended by the manufacturer. Dispose of used batteries according to the manufacturer's instructions and your local government's recycling or disposal directives.

Attention:

Il y a un risque d'explosion si la batterie est remplacée de façon incorrecte. Ne la remplacer qu'avec le même modèle ou équivalent recommandé par le constructeur. Recycler les batteries usées en accord avec les instructions du fabricant et les directives gouvernementales de recyclage.

High Temperature Warning

(1) This equipment is intended to be used in Restrict Access Location. The access can only be gained by Skilled person or by Instructed person who have been instructed about the metal chassis of the equipment is so hot that Skilled person have to pay special attention or take special protection.

Only authorized by well trained professional person can access the restrict access location.

(2) External metal parts are hot!! Before touching it, special attention or protection is necessary

[Front Side]

[Left Side]

[Rear Side]

[Right Side]

[Install]

* Before opening the case, make sure to unplug the power cord.
* Before Connecting the power, make sure to fasten the case securely.

[Bottom PCB Side]

	Information		
A	2 x DDR4 SO-DIMM sockets, DDR4		
A	2400 MHz, Max. Capacity 32 GB		
В	1 x Min PCIe slot (PCIeX1 +		
В	USB2.0) with Sim Slot		

	Information		
С	1 x M.2 slot (Support NGFF-2230 WiFi/BT)		
	1 x M.2 slot (Supports NGFF-2280 SATA)		
D	2.5" Hard drive/SSD		

GIGAIPC

2.3 A) Wireless Module: How to safely install the Module (Wireless Module inclusion may vary based on local distribution)

Carefully insert the wireless module into the M.2 slot

小心地將無線模組安裝於M.2插槽中。

Lock the screw in the middle.

鎖入固定於無線模組中央頂端的螺 絲。

3

Install the antenna on the left side of the connection wireless module down.

向下安裝連結於無線模組左側頂端天線。

2.4 B) Memory Installation: DDR3L SO-DIMM

Carefully insert SO-DIMM memory modules. 小心地由下至上將 SO-DIMM 記憶體安 裝於記憶體插槽。

Push down until the modules click into place. 當記憶體固定於插槽後,再輕輕 下壓至定點。

Carefully insert SO-DIMM memory modules. 安裝下層記憶體後,重覆前述動作安 裝上層記憶體。

Push down until the modules click into place. 當記憶體固定於插槽後,再輕輕 下壓至定點。

GIGAIPC

2.5 Antenna Installation (Antenna inclusion may vary based on local distribution)

1

Carefully insert the antennas into the connectors. 小心地將天線插入天線插孔中。

Turn the antennas clockwise until they are completely secure on the connectors.

握住天線接頭底端,按順時針方向將天線旋入插孔 中牢牢固定。

3

Flip up the antenna heads so that they are perpendicular to the machine. 栓緊後請將天線拉起朝上呈垂直狀。

• For a list of tested memory, M.2, 2.5" SSD, wireless adapters and OS supported, go to: http://www.gigaipc.com

• To download the latest drivers and BIOS updates, go to: http://www.gigaipc.com

• For product support, go to: http://www.gigaipc.com

2.8 Safety and Regulatory Information

Risk of explosion if the battery is replaced with an incorrect type. Batteries should be recycled where possible.

Disposal of used Batteries must be in accordance with local environmental regulations.

Failure to use the included Power Adapter may violate regulatory compliance and may expose the user to safety hazards.

At the end of its serviceable life, this product should not be treated as household or general waste. It should be handed over to the applicable collection point for the recycling of electrical and electronic equipment, or returned to the supplier for disposal.
