Federal Communication Commission Interference Statement

THIS DEVICE COMPLIES WITH PART 15 OF THE FCC RULES. OPERATION IS SUBJECT TO THE FOLLOWING TWO CONDITIONS: (1) THIS DEVICE MAY NOT CAUSE HARMFUL INTERFERENCE AND (2) THIS DEVICE MUST ACCEPT ANY INTERFERENCE RECEIVED, INCLUDING INTERFERENCE THAT MAY CAUSE UNDESIRED OPERATION.

Note: This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to Part 15 of FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instruction, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Notice:

- (1) A Unshielded-type power cord is required in order to meet FCC emission limits and also to prevent interference to the nearby radio and television reception. It is essential that only the supplied power cord by used.
- (2) Use only shielded cables to connect I/O devices to this equipment.
- (3) Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

FCC RF Radiation Exposure Statement

This Wireless LAN radio device has been evaluated under FCC Bulletin OET 65 and found compliant to the requirements as set forth in CFR 47 Sections 2.1091, 2.1093, and 15.247 (b) (4) addressing RF Exposure from radio frequency devices. The radiated output power of this Wireless LAN device is far below the FCC radio frequency exposure limits. Nevertheless, this device shall be used in such a manner that the potential for human contact during normal operation is minimized. When nearby persons has to be kept to ensure RF exposure compliance, in order to comply with RF exposure limits established in the ANSI C95.1 standards, the distance between the antennas and the user should not be less than 20 cm.

WARNING

“CAUTION – Use suitable mounting apparatus to avoid risk of injury.”

“CAUTION – This is a Class A product. In a domestic environment this product may cause radio interference in which case the user may be required to take adequate measures”

“CAUTION –Risk of explosion if battery is replaced by an incorrect type. Dispose of used batteries according to the instructions.”

“CAUTION - Use a power cord that matches the voltage of the power outlet, which has been approved and complies with the safety standard of your particular country.”

“WARNING – To avoid risk of electric shock, this equipment must only be connected to a supply mains with protective earth.”

1. Getting Started

1.1 Safety Precautions

Warning!

Always completely disconnect the power cord from your chassis whenever you work with the hardware. Do not make connections while the power is on. Sensitive electronic components can be damaged by sudden power surges. Only experienced electronics personnel should open the PC chassis.

Caution!

Always ground yourself to remove any static charge before touching the CPU card. Modern electronic devices are very sensitive to static electric charges. As a safety precaution, use a grounding wrist strap at all times. Place all electronic components in a static-dissipative surface or static-shielded bag when they are not in the chassis.

1.2 Packing List

- 1 x OFT-10W02 Open Frame Tablet

If any of the above items is damaged or missing, contact your retailer.

Note:

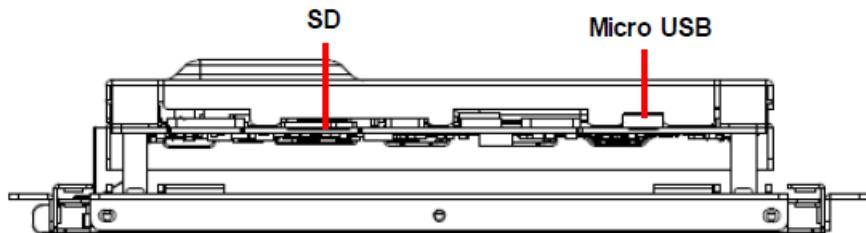

1. Specifications are subject to change without notice.
2. Limitation: CPU Intel Z3735F only has S0iX or S5 without S3 & S4.
S0iX needs hardware support that means all of device must have S0iX support or will not wake up.
Please strongly advice customers to not get into sleep mode, just backlight off.

1.4 System Overview

1.4.1 Right View

1.4.2 Left View

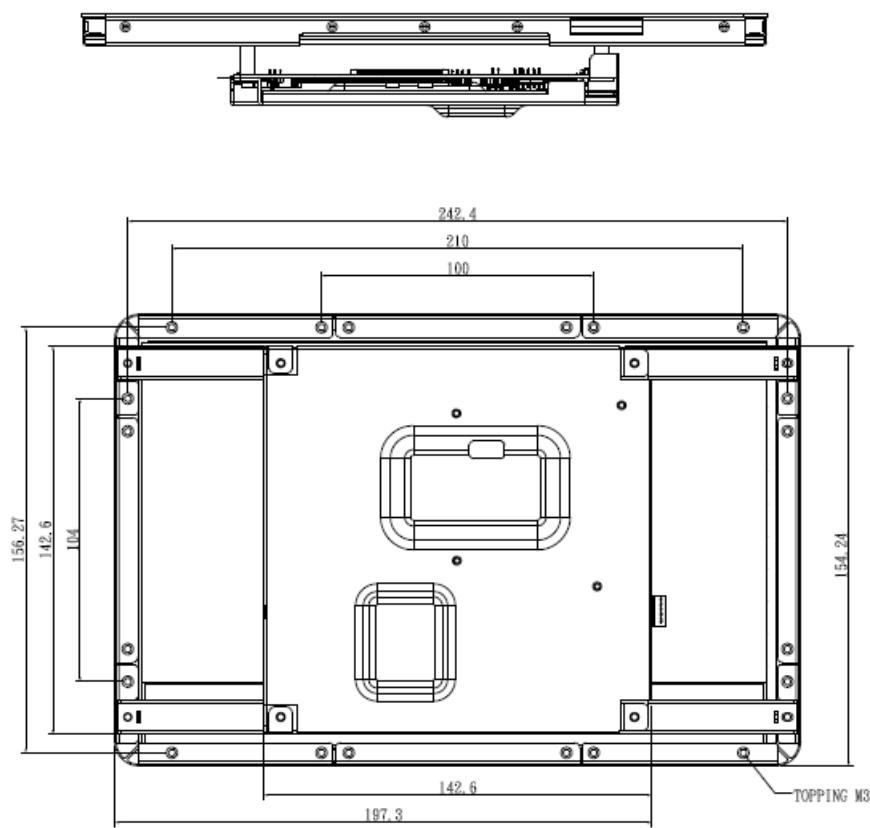

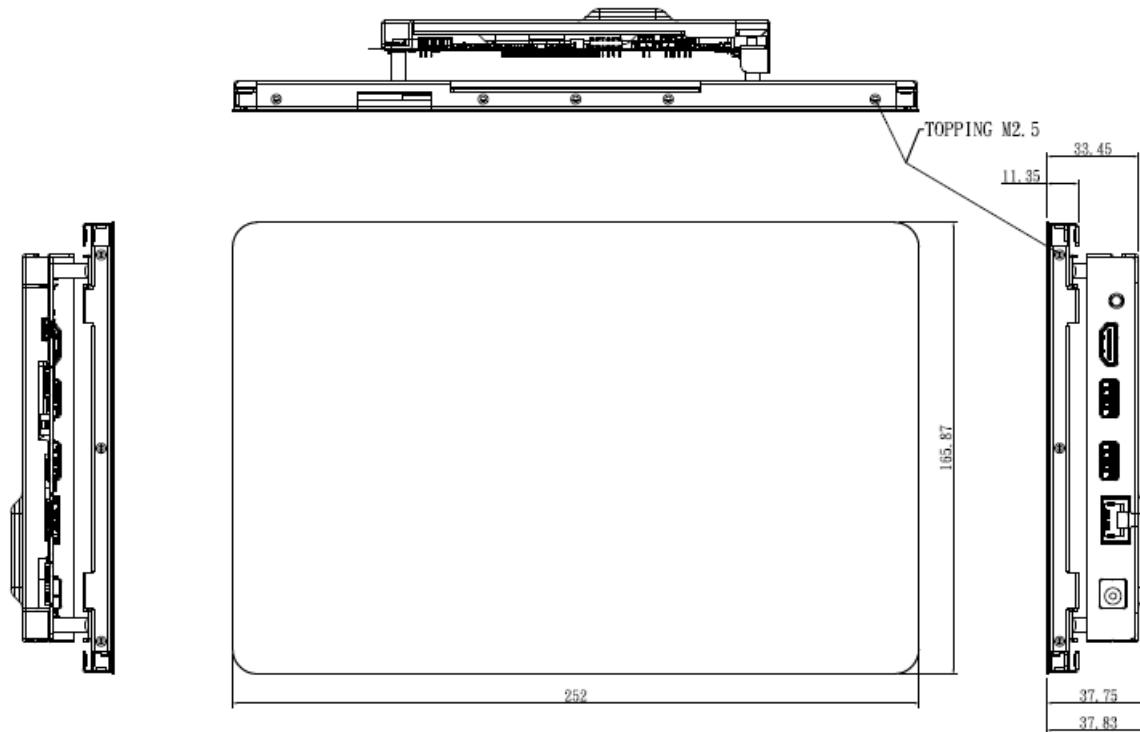

Connectors

| Label | Function | Note |
|-----------|--------------------------|------|
| HP | Audio line-out connector | |
| HDMI | HDMI connector | |

| LAN | RJ-45 Ethernet | |

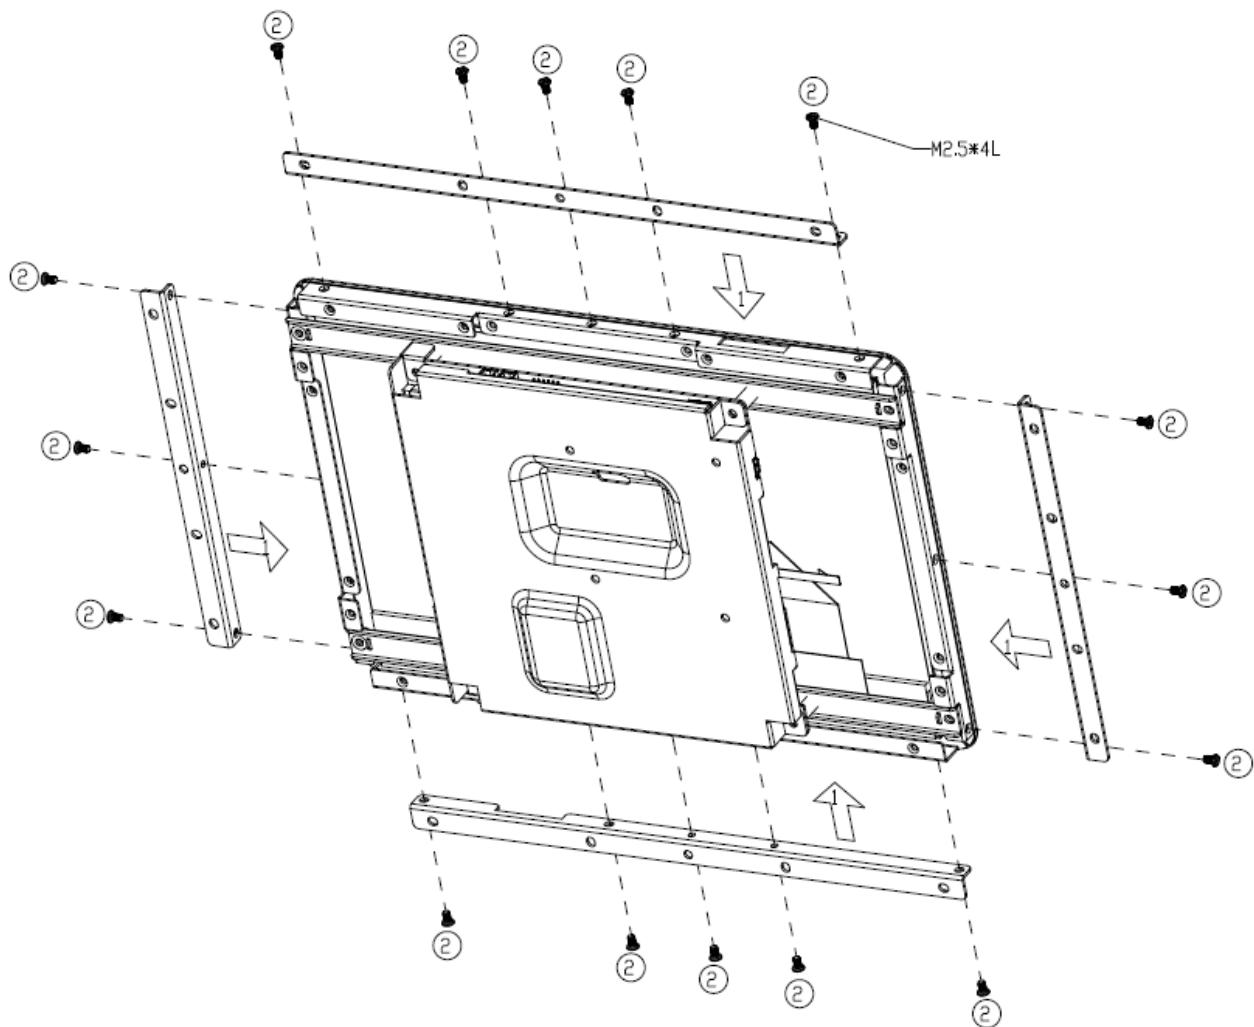

1.5 System Dimensions

1.5.1 Front and Rear side

(Unit: mm)

1.5.2 Installing Extend Brackets

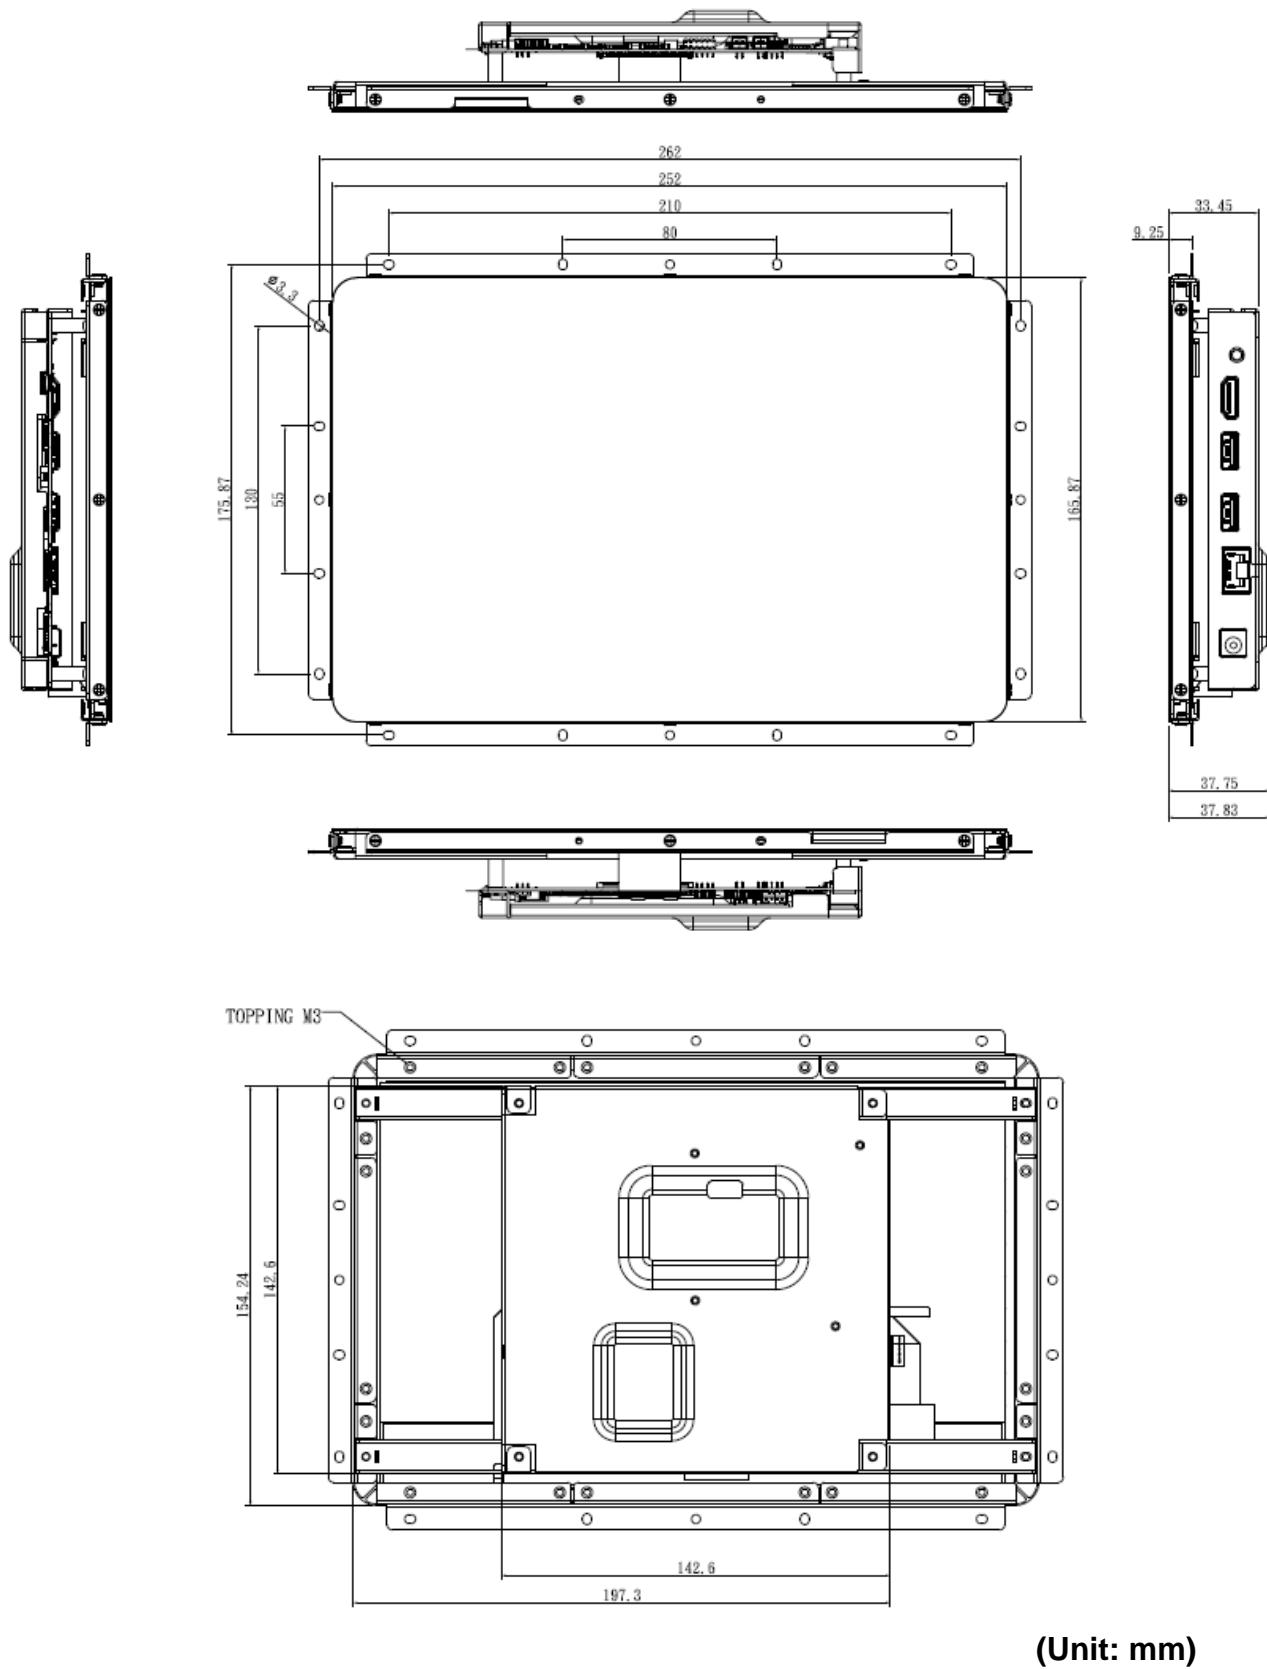

Step1. Locate brackets on both sides, matching the holes on the monitor.

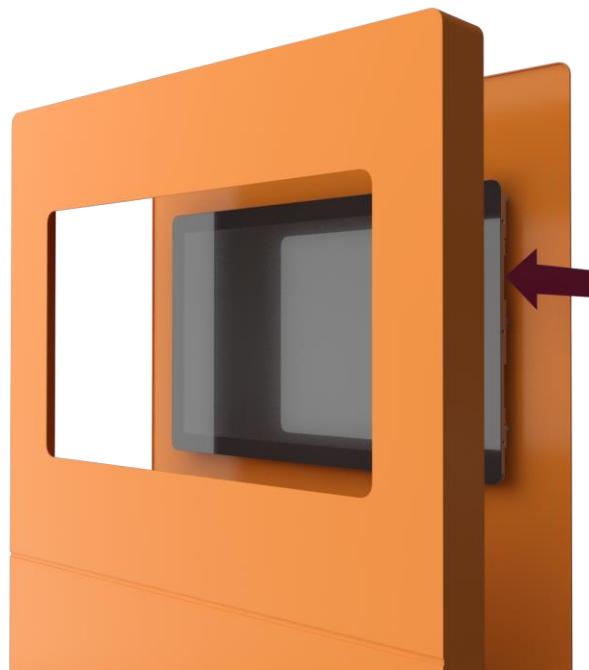

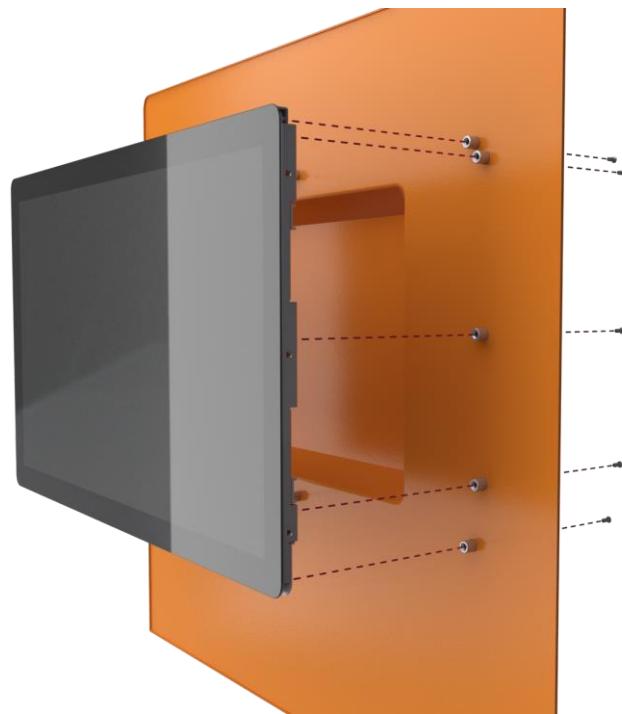

Step2. Insert and fasten 16 screws on each side of the monitor to secure Mounting brackets.

Note: Brackets sold separately.

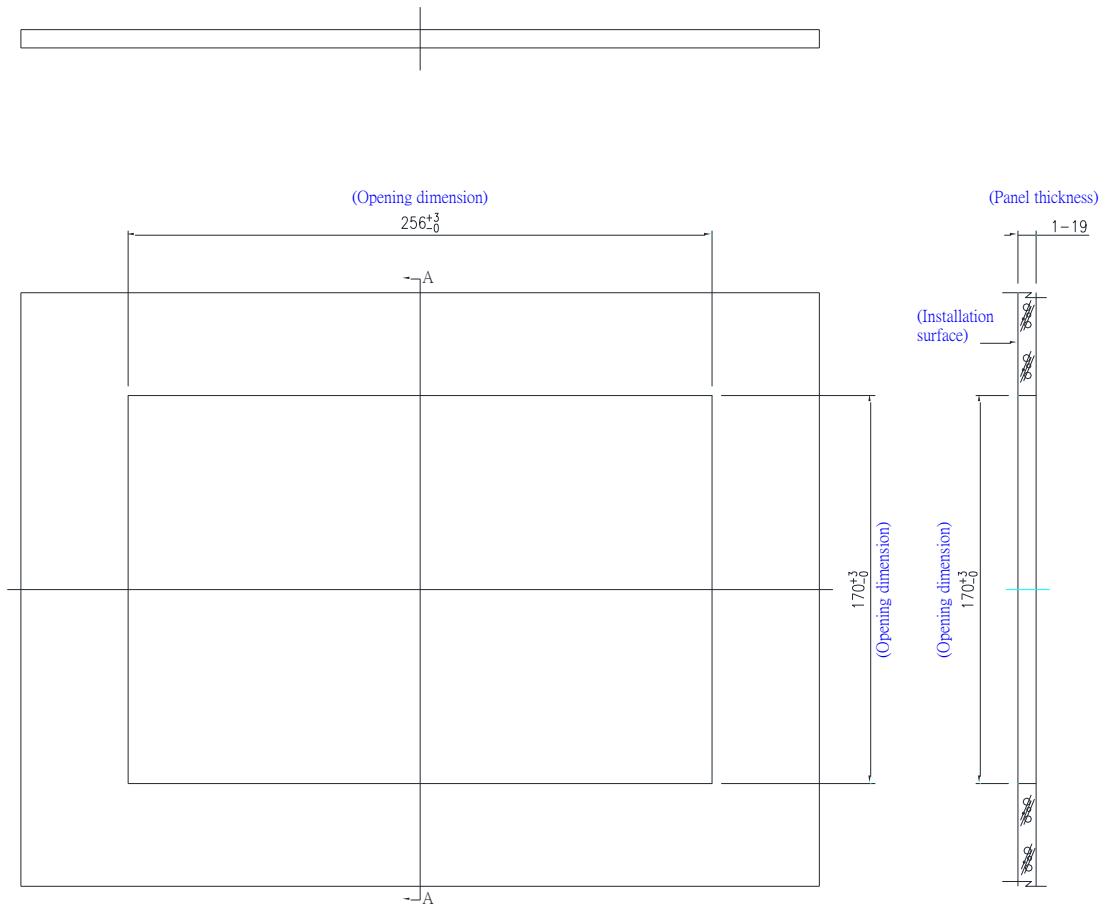

1.5.3 Front and Rear side (With Extend Bracket)

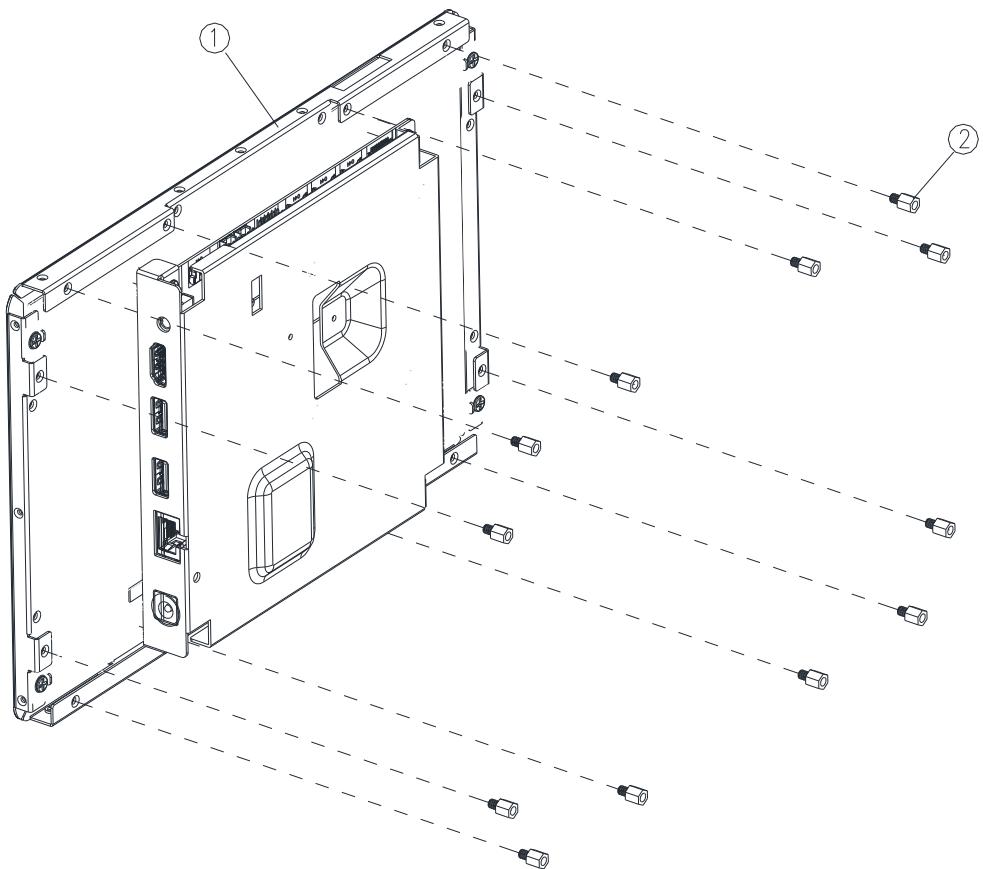

1.6 Flush Mounting Concept

1.7 Panel Mounting

(Unit: mm)

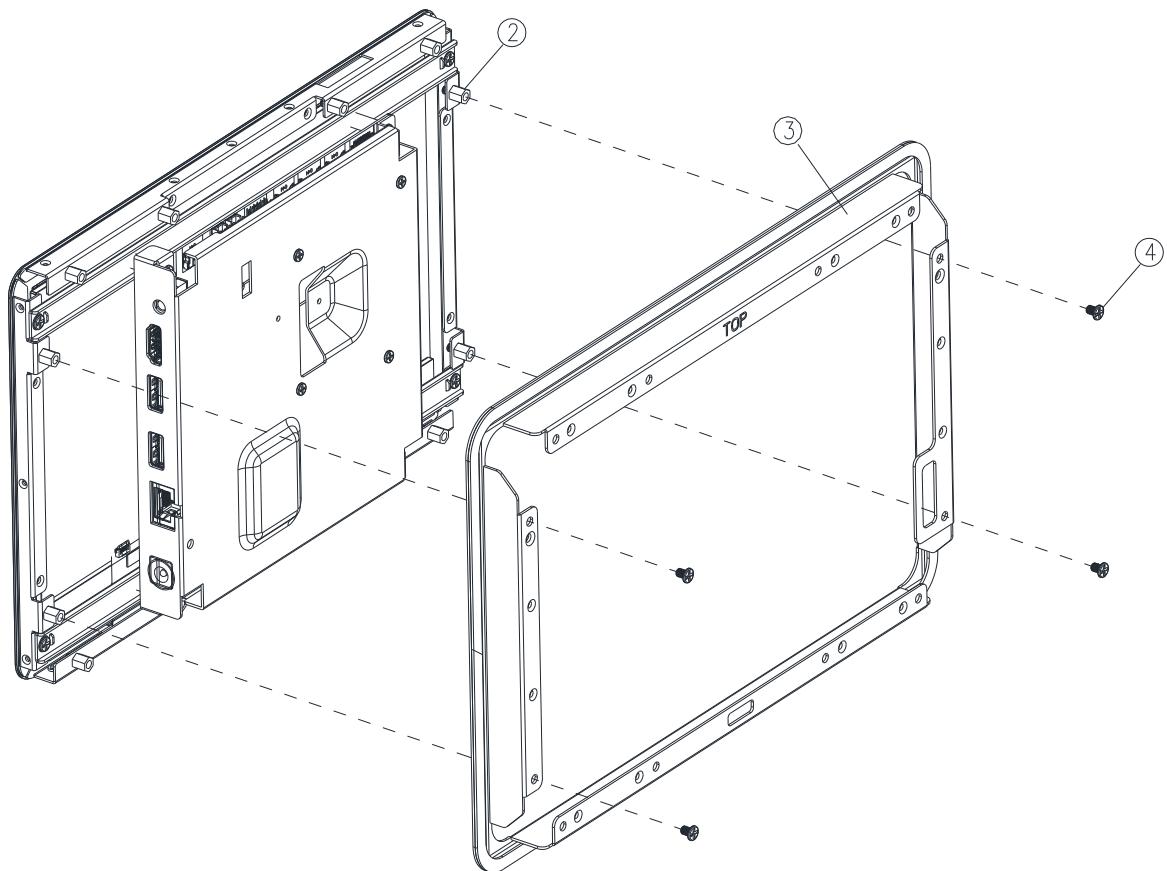

Step1-1. Locate brackets on both sides, matching the holes on the monitor.

Step1-2. Insert and fasten 12 screws on each side of the monitor to secure Mounting brackets.

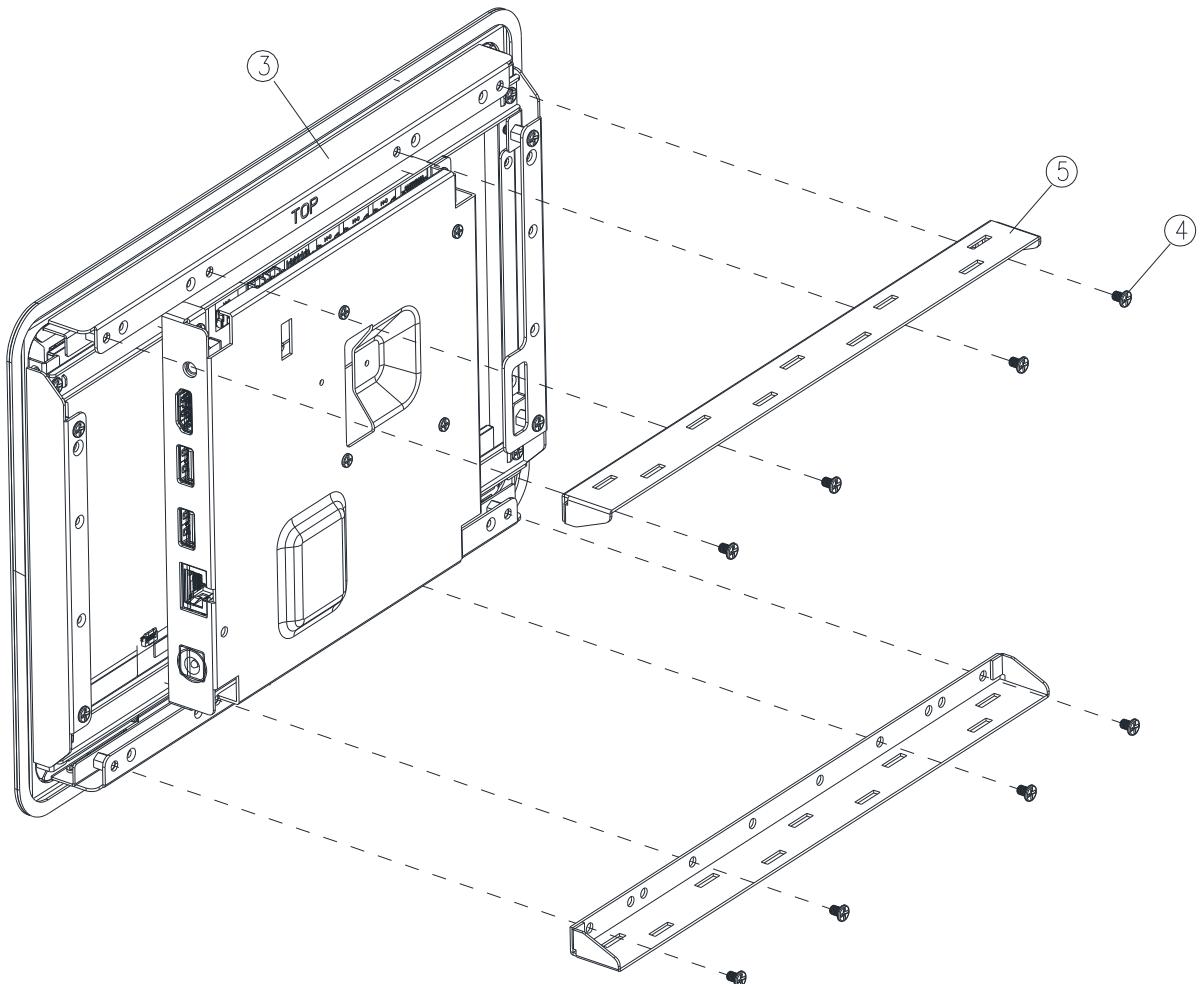

| | | |
|------|-----------------------|----------|
| 2 | Hexagon Stud | 12 |
| 1 | Motherboard_10W1_ASSY | 1 |
| Item | Part Name | Quantity |

OFT-10W02

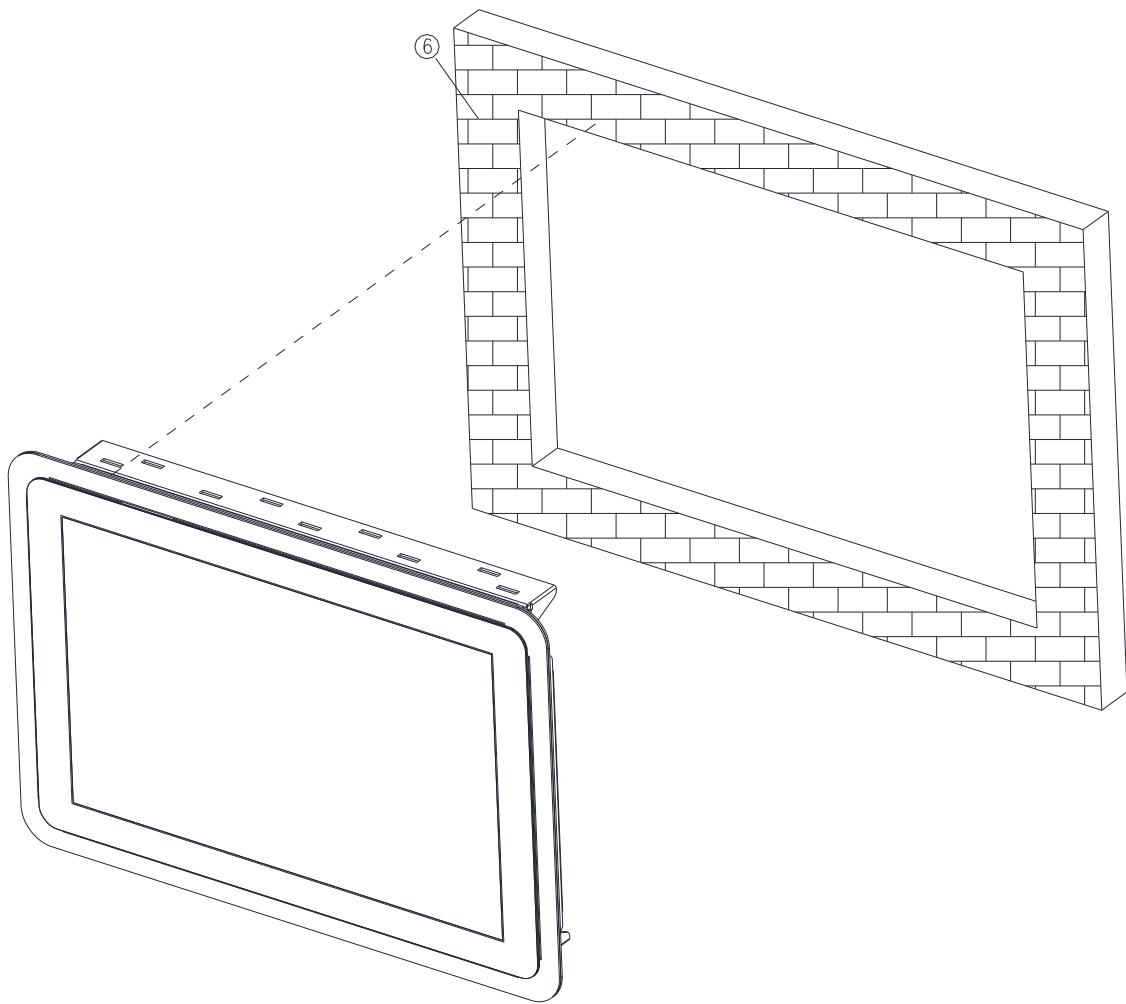

Step2. Insert and fasten 4 screws on each side of the monitor to secure Front bracket.

| 2 | Hexagon Stud | 12 |
|------|-----------------------|----------|
| 1 | Motherboard_10W1_ASSY | 1 |
| Item | Part Name | Quantity |

Step3. Insert and fasten 8 screws to secure Bracket T/B.

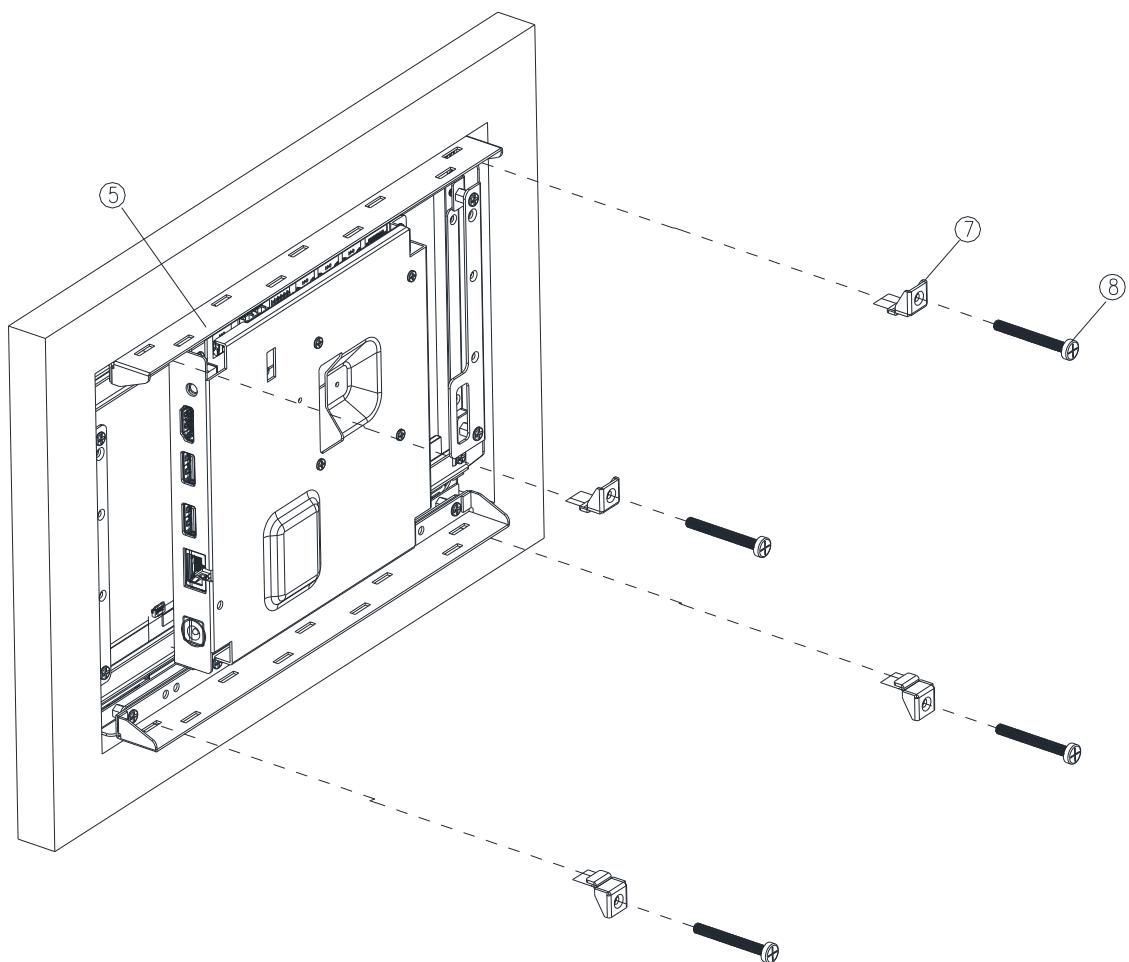

| | | |

2.1 Architecture Overview—Block Diagram

The following block diagram shows the architecture and main components of Motherboard.

2.2 Motherboard Overviews

2.3 Motherboard Connector list

Connectors

| Label | Function | Note |
|---------|-------------------------------|------|
| JHP1 | Audio line-out connector | |
| JHDMI1 | HDMI connector | |
| JUSB2/3 | 2 x USB 2.0 connector | |
| JRJ45 | RJ-45 Ethernet connector | |
| JDCIN2 | DC Power-in connector | |
| JDCIN3 | DC Power-in connector | |
| J10TP1 | 10" Touch connector | |
| J19TP1 | 21" Touch connector | |
| J19BL1 | 21" back light connector | |
| J10LCD | 10" LCD connector | |
| J15LCD | 15" LCD connector | |
| J19LCD | 21" LCD connector | |
| JDPUP1 | Debug Port | |
| JSD1 | Micro SD card slot | |
| JRTC | RTC battery connector | |
| JSEN1 | I2C connector | |
| JUUSB1 | Micro USB connector | |
| JDIO1 | General purpose I/O connector | |
| JCAM1 | USB connector | |
| J485-1 | RS-485 connector | |
| J232-1 | RS-232 connector | |
| JTB1 | Touch button board connector | |
| JAMP_L | AMPLIFIER_L | |
| JAMP_R | AMPLIFIER_R | |
| JAMIC1 | A-MIC connector | |
| JECDDB | EC Debug connector | |
| JDB1 | Debug connector | |

***Ethernet LED behavior:**

| Label | LED color | Indication | Meaning |
|------------------|------------------|-------------------|-------------------------------------|
| Data Rate | Yellow | LED off | 10 Mbits/sec data rate is selected |
| | | LED on | 100 Mbits/sec data rate is selected |
| Link/ACT | Green | off | LAN link is not established |
| | | LED on | LAN link is established |
| | | LED Blinking | LAN active is occurring |

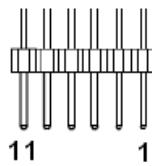

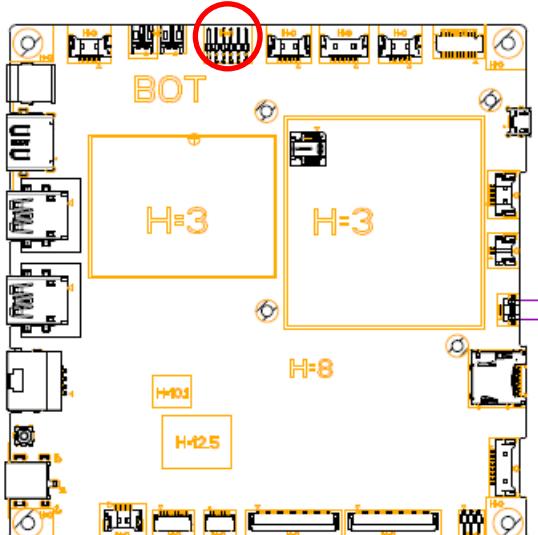

***RTC Battery**

Warning: Risk of Explosion if Battery is replaced by an Incorrect Type. Dispose of Used Batteries According to the Instructions."

Attention: Risque d'explosion si la batterie est remplacée par un type incorrect. Jetez les piles usagées selon les instructions.

2.5 FCC

Contains

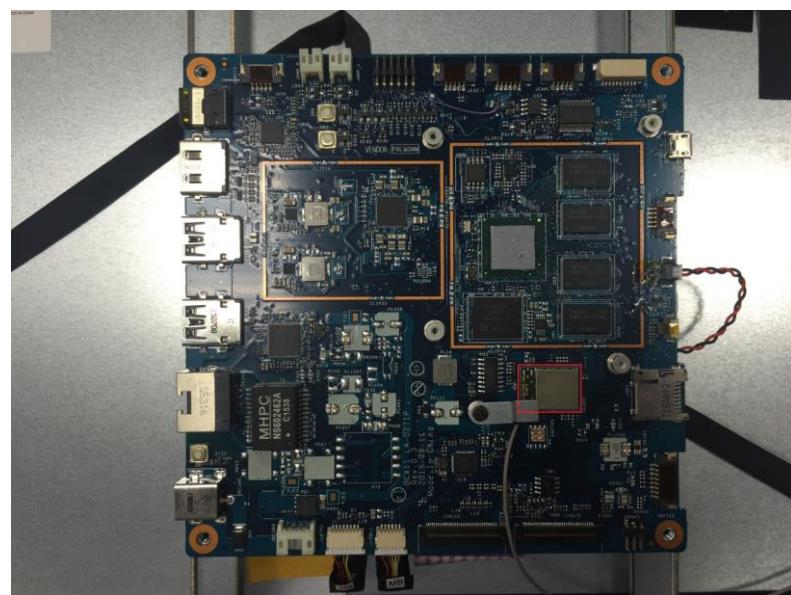

FCC ID: TX2-RTL8723BS

IC: 6317A-RTL8723BS

FCC ID is located on the MB WiFi Module:

Remove all screws on shielding cover.

WiFi Module is located on MB underneath of the Shielding cover.

FCC ID is shown on WiFi Module.

2.6 Android Rotate Setting

Landscape/portrait mode rotate setting:

Default rotation is 0° → rotate 90°/180°/270° → Power off → Restart
