| Title   | SATADOM-ML 3MG2-P DRAM IC Substitution Notice    | Date              | 2024/1/11 | No. | F2367-1 |
| Models  | SATADOM-ML 3MG2-P                                |                   |           |     |         |
| Level   | C: Potential risk by scenario, suggest to change | Hardware - Others |           |     |         |
| Description   |  |                   |           |     |         |
| This PCN is being issued to address that Innodisk SATADOM-ML 3MG2-P series are going to adopt substituting on-board DRAM IC due to product End of Life. This component substitution does not pose any potential risks to the SSD functionality and no additionality action is required from the user. |  |                   |           |     |         |

|                      |                     |                 |
