# Introduction

---

## 1.1 Overview

**Figure 1-1: IASO-W10B-N6210 Medical Panel PC**

The IASO-W10B-N6210 is an Intel® Celeron® Processor N6210 powered medical-grade panel PC designed for easy and simplified integration into healthcare applications. The system is pre-installed with 4 GB of DDR4 memory, ensuring smooth data throughputs with reduced bottlenecks and fast system access.

One RS-232 serial port and two USB 3.2 Gen 1 ports provide simplified connectivity to a variety of external peripheral devices. Wi-Fi 6E high efficiency wireless and one GbE RJ-45 connector allow for smooth connection of the system to an external LAN. The GbE connector also supports IEEE802.3 PoE, making the panel PC a PoE powered device (PD).

### **NOTE:**

The IASO-W10B-N6210 medical panel PC is intended to be used to display general purpose medical information. The device shall not be used for diagnosis purpose or life supporting system.

---

## 1.2 Model Variations

There are two models in the IASO-W10B-N6210 series. All models are preinstalled with one 4 GB DDR4 memory module and a Wi-Fi 6E module. The model numbers and model variations are listed below.

	CPU	IEEE802.3 PoE
IASO-W10B-N6210/4G	Intel® Celeron® N6210	No
IASO-W10B-N6210/4G/PoE	Intel® Celeron® N6210	Yes

Table 1-1: Model Variations

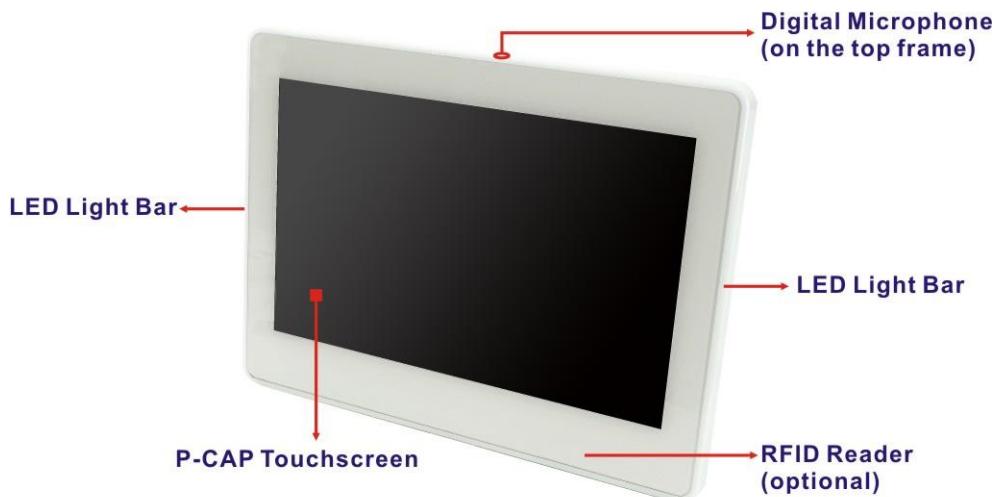

## 1.3 Features

The IASO-W10B-N6210 features are listed below:

- Compact fanless medical-grade panel PC for easy installation
- P-CAP touchscreen with 10-point multi-touch and optical bonding
- Intel® Celeron® Processor N6210 platform
- Preinstalled with 4 GB of DDR4 memory
- Programmable LED light bars on both sides
- One HDMI output port supports an additional display
- One GbE RJ-45 with optional PoE
- Wi-Fi 6E high efficiency wireless
- Two internal speakers
- Two USB 3.2 Gen 1 (5Gb/s) ports
- One RS-232 DB-9
- RFID (NFC) reader (optional)

## 1.4 Front Panel

The front side of the IASO-W10B-N6210 is a flat-bezel panel with a 10.1" LCD screen surrounded by an ABS/PC plastic frame. The LED bars are located on both sides of the front panel. A digital microphone is located on the top frame. The bottom right surface contains an optional RFID reader.

**Figure 1-2: Front View**

### WARNING / AVERTISSEMENT

The LED light is only for aesthetic purpose, not for warning use. The LED color cannot be configured to red, yellow and green.

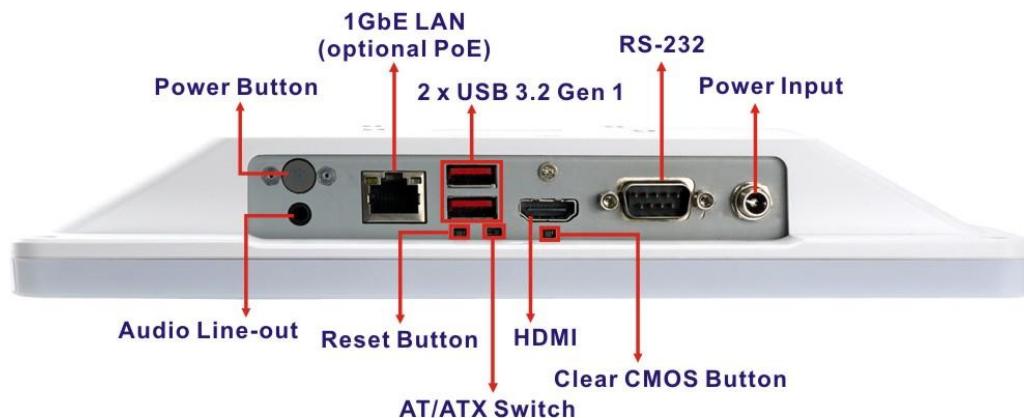

La lumière LED est uniquement à des fins esthétiques, pas pour une utilisation d'avertissement. La couleur des LED ne peut pas être configurée sur rouge, jaune et vert.

**IASO-W10B-N6210 Medical Panel PC**

## 1.5 Bottom Panel

The bottom panel of the IASO-W10B-N6210 has the following connectors and components (**Figure 1-3**):

- 1 x 12 V DC input jack (standard)
- 1 x HDMI output connector
- 1 x 1GbE RJ-45 supporting PoE
- 1 x RS-232 DB-9 serial port
- 2 x USB 3.2 Gen 1 connector (5Gb/s)
- 1 x Audio-out connector
- 1 x Power button
- 1 x Reset button
- 1 x Clear CMOS button
- 1 x AT/ATX power mode switch

**Figure 1-3: Bottom Panel**

## 1.6 Rear Panel

The rear panel contains two internal speakers, and four retention screw holes that support VESA 75 mount (**Figure 1-4**).

Figure 1-4: Rear View

## IASO-W10B-N6210 Medical Panel PC

### 1.7 System Specifications

The technical specifications for the IASO-W10B-N6210 systems are listed below.

LCD and Touchscreen	
<b>LCD Size</b>	10.1"
<b>Max. Resolution</b>	1280 (W) x 800 (H)
<b>Brightness (cd/m<sup>2</sup>)</b>	400
<b>Contrast Ratio</b>	800:1
<b>LCD Color</b>	16.7M RGB 6-bit (Hi-FRC)
<b>Pixel Pitch (mm)</b>	0.1695 (H) x 0.1695 (V)
<b>Viewing Angle (H-V)</b>	178°/178°
<b>Backlight MTBF</b>	30,000 hrs (LED backlight)
<b>Touchscreen</b>	Projected capacitive type with optical bonding
<b>Multi-touch</b>	10-point touch
<b>Touch Controller</b>	EETI
<b>Surface Hardness</b>	6H
System	
<b>CPU</b>	Intel® Celeron® N6210 (code-named Elkhart Lake, 6.5W TDP)
<b>Memory</b>	Preinstalled with 4 GB DDR4 SO-DIMM
<b>GbE Controller</b>	Intel® I225-V Ethernet controller
<b>Wi-Fi and Bluetooth</b>	IEEE 802.11ax 2T2R (Wi-Fi 6E) Bluetooth v5.0 (via M.2 2230 AE key)
<b>I/O Ports &amp; Buttons</b>	1 x 12V DC input jack 1 x HDMI output 1 x 1GbE LAN (RJ-45) supporting PoE 1 x RS-232 (DB-9) 2 x USB 3.2 Gen 1 (5Gb/s) 1 x Audio jack (TRRS)

	1 x Reset button 1 x Clear CMOS button 1 x Power button 1 x AT/ATX power mode switch
<b>Storage</b>	1 x M.2 2242 M-key slot (PCIe & SATA signal)
<b>Audio</b>	AMP 1W + 1W (internal speaker)
<b>Microphone</b>	1 x Digital microphone
<b>RFID</b>	Mifare RFID reader, 13.56MHz (optional)
<b>Physical</b>	
<b>Construction Material</b>	Front bezel: PC Rear cover: PC/ABS plastic
<b>Mounting</b>	Wall, stand and arm VESA 75 mm x 75 mm
<b>Dimensions (W x H x D)</b>	261 mm x 196.4 mm x 40 mm
<b>Weight (Net/Gross)</b>	1.49 kg / 2.86 kg
<b>Environment</b>	
<b>Storage/Transportation</b>	<b>Temperature</b> -20°C - 60°C
	<b>Humidity</b> 10% - 95% (non-condensing)
	<b>Pressure</b> 700 hPa - 1060 hPa
<b>Operating</b>	<b>Temperature</b> 0°C - 40°C
	<b>Humidity</b> 20% - 80% (non-condensing)
	<b>Pressure</b> 700 hPa - 1060 hPa
<b>Vibration</b>	1G
<b>Shock</b>	Operating Shock: 5G peak acceleration (11ms duration) Non-Operating Shock: 15G peak acceleration (11ms duration)
<b>IP Level</b>	IP 65 compliant front panel
<b>Thermal</b>	Fanless

## IASO-W10B-N6210 Medical Panel PC

<b>EMC &amp; Safety</b>	CE, FCC Class B Part18 EN 60601-1:2006/A1:2013 (Edition 3.1) EN 60601-1-2: 2015 (Edition 4.0)
<b>Power</b>	
<b>Power Input</b>	12 V DC

The IASO-W10B-N6210 dimensions are shown below.

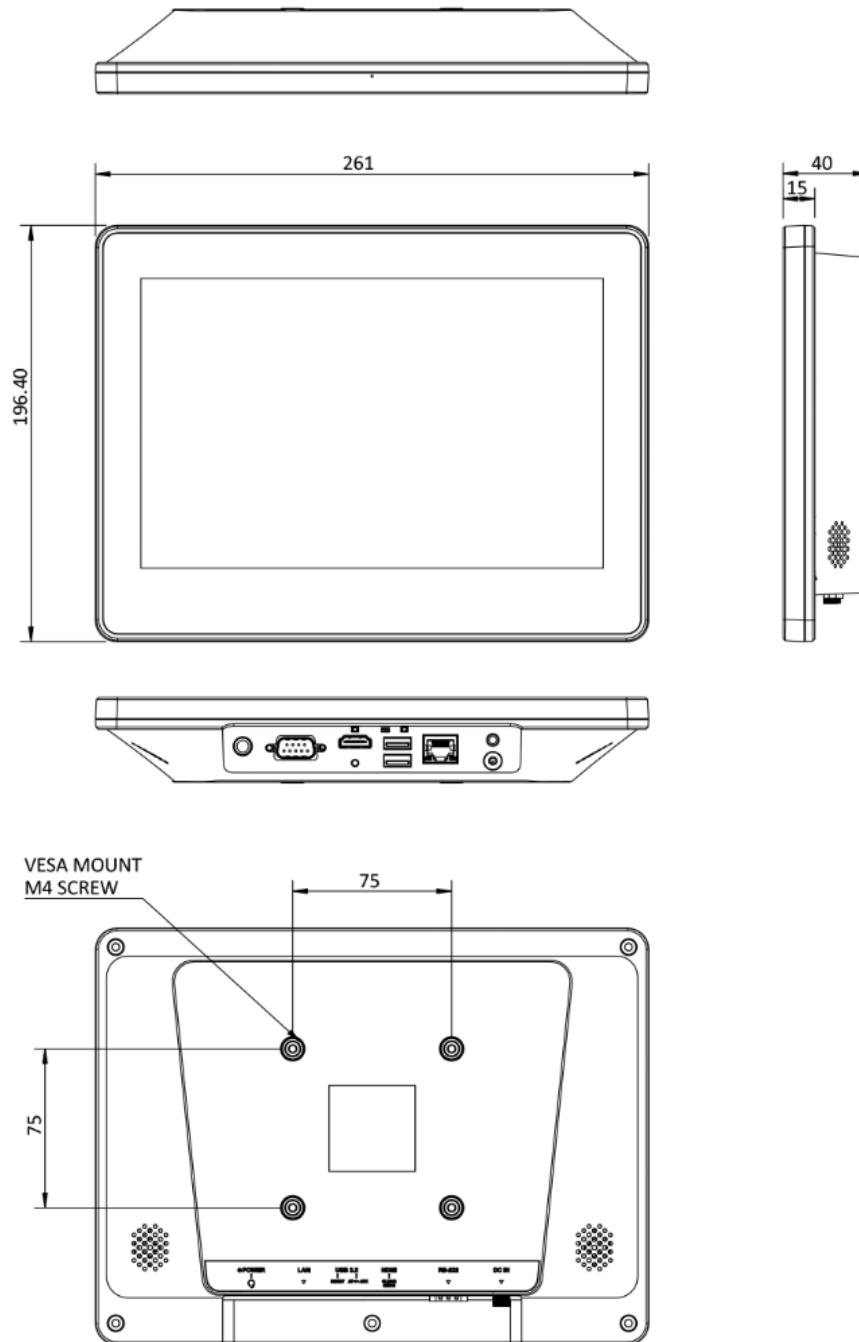

Figure 1-5: Dimensions (mm)

Chapter

2

# Unpacking

---

## 2.1 Unpacking

To unpack the medical panel PC, follow the steps below:

### **WARNING / AVERTISSEMENT**

The front side LCD screen has a protective plastic cover stuck to the screen. Only remove the plastic cover after the medical panel PC has been properly installed. This ensures the screen is protected during the installation process.

L'écran LCD avant a un couvercle en plastique de protection collé à l'écran. Retirez le couvercle en plastique uniquement une fois que le Panel PC médical a été correctement installé. Cela garantit que l'écran est protégé pendant le processus d'installation.

- Step 1:** Use box cutters, a knife or a sharp pair of scissors that seals the top side of the external (second) box.
- Step 2:** Open the external (second) box.
- Step 3:** Use box cutters, a knife or a sharp pair of scissors that seals the top side of the internal (first) box.
- Step 4:** Lift the panel PC out of the boxes.
- Step 5:** Remove both polystyrene ends, one from each side.
- Step 6:** Pull the plastic cover off the medical panel PC.
- Step 7:** Make sure all the components listed in the packing list are present.

**IASO-W10B-N6210 Medical Panel PC****2.2 Packing List****NOTE:**

If any of the components listed in the checklist below are missing, do not proceed with the installation. Contact the IEI reseller or vendor the IASO-W10B-N6210 was purchased from or contact an IEI sales representative directly by sending an email to [iei\\_medical@ieeworld.com](mailto:iei_medical@ieeworld.com).

The IASO-W10B-N6210 medical panel PC is shipped with the following components:

Quantity	Item	Image
1	IASO-W10B-N6210 medical panel PC	
1	Medical-grade power adapter, 63040-010065-300-RS (FSP FSP065-DHBM1, 65W)	
1	Power cord (EU, 183cm)*	
	Power cord (US/Canada, 183cm)*	

\*Either one; shipped according to the country code of the order.

**2.3 Optional ATO Items**

The following is optional, assemble-to-order component:

Item	Part Number
RFID module (integrated RFID reader, RF Ideas KT-805N24KU-F01009, USB 2.0, 13.56MHz/125KHz, CCL, RoHS)	27765-000002-RS

Chapter

# Installation

---

### 3.1 Safety Precautions

Please ensure the following safety precautions are adhered to at all times.

- ***External equipment intended for connection to signal input /output or other connectors, shall comply with relevant UL /IEC standard*** (e.g. IEC60950 -1/IEC62368 -1 for IT equipment and ANSI/AAMI ES60601-1: 2012 AND CAN/CSA- C22.2 No. 60601-1:08/IEC 60601 series for systems—shall comply with the standard IEC 60601-1, Safety requirements for medical electrical systems. Equipment not complying with UL 60601-1 shall be kept outside the patient environment, as defined in the standard.
- ***Remove the Power cord form A.C. MAINS if it will not to be used for a long time.***
- ***To prevent the risk of electric shock, make sure power cord is unplugged from wall socket.*** To fully disengage the power to the unit, please disconnect the power cord from the ac outlet. Refer servicing to qualified service personnel. The AC outlet shall be readily available and accessible.
- ***Users must not allow SIP/SOPs and the patient to come into contact at the same time.***
- ***Grounding reliability*** can only be achieved when the equipment is connected to an equivalent receptacle marked “Hospital Only” or “Hospital Grade”.
- ***Follow the electrostatic precautions*** outlined below whenever the IASO-W10B-N6210 is opened.
- ***Make sure the power is turned off and the power cord is disconnected*** whenever the IASO-W10B-N6210 is being installed, moved or modified.
- ***Do not apply voltage levels that exceed the specified voltage range.*** Doing so may cause fire and/or an electrical shock. Use a power cord that matches the voltage of the power outlet, which has been approved and complies with the safety standard of your particular country.
- ***Electric shocks can occur*** if the IASO-W10B-N6210 chassis is opened when the IASO-W10B-N6210 is running. To avoid risk of electric shock, this equipment must only be connected to a supply mains with protective earth.

- **DO NOT LEAVE THIS EQUIPMENT IN AN UNCONTROLLED ENVIRONMENT WHERE THE STORAGE TEMPERATURE IS BELOW -20° C (-4°F) OR ABOVE 60° C (140° F). IT MAY DAMAGE THE EQUIPMENT.**
- **If considerable amounts of dust, water, or fluids enter the IASO-W10B-N6210,** turn off the power supply immediately, unplug the power cord, and contact the IASO-W10B-N6210 vendor.
- **Never replace or repair any components on your own.** If the components of the IASO-W10B-N6210 fails or malfunctions it must be shipped back to IEI to be repaired. Please contact the system vendor, reseller or an IEI sales person directly.
- **DO NOT:**
  - Drop the IASO-W10B-N6210 against a hard surface.
  - Strike or exert excessive force onto the LCD panel.
  - Touch any of the LCD panels with a sharp object
  - In a site where the ambient temperature exceeds the rated temperature

### 3.2 Anti-static Precautions

#### **WARNING / AVERTISSEMENT**

Failure to take ESD precautions during the maintenance of the IASO-W10B-N6210 may result in permanent damage to the IASO-W10B-N6210 and severe injury to the user.

Le fait de ne pas prendre des précautions contre les décharges électrostatiques pendant la maintenance du IASO-W10B-N6210 peut entraîner des dommages permanents au IASO-W10B-N6210 et des blessures graves pour l'utilisateur.

Electrostatic discharge (ESD) can cause serious damage to electronic components, including the IASO-W10B-N6210. Dry climates are especially susceptible to ESD. It is therefore critical that whenever the IASO-W10B-N6210 is accessed internally, or any other electrical component is handled, the following anti-static precautions are strictly adhered to.

- ***Wear an anti-static wristband:*** Wearing a simple anti-static wristband can help to prevent ESD from damaging the board.
- ***Use an anti-static pad:*** When configuring the IASO-W10B-N6210, place it on an anti-static pad. This reduces the possibility of ESD damaging the IASO-W10B-N6210.

### 3.3 Installation Precautions

When installing the medical panel PC, please follow the precautions listed below:

- **Certified Engineers:** Only certified engineers should install and modify the hardware settings.
- **Power turned off:** When installing the medical panel PC, make sure the power is off. Failing to turn off the power may cause severe injury to the body and/or damage to the system.
- **Anti-static Discharge:** If a user open the rear panel of the medical panel PC, to plug in added peripheral devices, ground themselves first and wear an anti-static wristband.
- **AC power plug:** AC plug is used as a means and device to be separated from the mains, and must be installed in a location where it can be easily unplugged

#### **WARNING / AVERTISSEMENT**

1. DO NOT modify this equipment without authorization of manufacturer.

Ne modifiez pas cet équipement sans l'autorisation du fabricant.

2. DO NOT power up the IASO-W10B-N6210 while the front panel is facing down on a sheet of conductive foam. Doing so may cause the touch panel to malfunction due to the large surface area of contact between the conductive form and the touch panel.

NE mettez PAS le IASO-W10B-N6210 sous tension lorsque le panneau avant est orienté vers le bas sur une feuille de mousse conductrice. Cela pourrait entraîner un dysfonctionnement de l'écran tactile en raison de la grande surface de contact entre la forme conductrice et l'écran tactile.

---

### 3.4 GbE Connection

The RJ-45 connector on the bottom panel allows 1GbE connection to be made to a Local Area Network. It supports PoE function (only for the sku with PoE function).

Pin	Description	Pin	Description
1	MDIA3-	5	MDIA1+
2	MDIA3+	6	MDIA2+
3	MDIA2-	7	MDIA0-
4	MDIA1-	8	MDIA0+

Table 3-1: Ethernet Connector Pinouts

LED	Description	LED	Description
A	on: linked blinking: data is being sent/received	B	off: 10 Mb/s green: 100 Mb/s orange: 1000 Mb/s

Table 3-2: Connector LEDs

### 3.5 RS-232 Serial Port Connection

The bottom panel of the IASO-W10B-N6210 has one DB-9 male connector for RS-232 connection. The pinouts of the DB-9 connector are listed below.

Pin	RS-232
1	DCD
2	RX
3	TX
4	DTR
5	GND
6	DSR
7	RTS
8	CTS
9	RI

A diagram of a DB-9 male connector. Pin 1 is at the top left, and Pin 6 is at the bottom left. Both pins are highlighted with red numbers and arrows pointing to them.

Table 3-3: RS-232 Serial Port Pinouts

### 3.6 AT/ATX Mode Selection

AT or ATX power mode can be used on the IASO-W10B-N6210. The selection is made through an AT/ATX switch located on the bottom panel (**Figure 3-2**).

Figure 3-2: AT/ATX Switch Location

### 3.7 VESA Mounting

The IASO-W10B-N6210 is VESA (4 screws: M4 type, 6 mm length min.) compliant and can be mounted on a mounting device with a 75 mm interface pad. The IASO-W10B-N6210 VESA mount retention screw holes are shown below. Refer to the installation guide that came with the mounting device to mount the IASO-W10B-N6210.

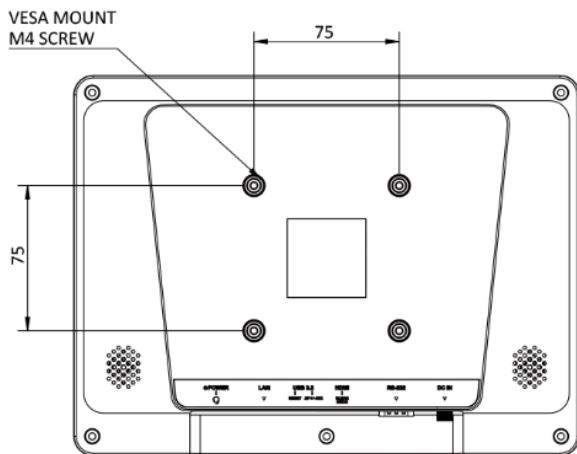

Figure 3-3: VESA Mounting Retention Screw Holes

#### **WARNING / AVERTISSEMENT**

Use suitable mounting apparatus and be sure to secure the screws of the mounting apparatus tightly to avoid risk of injury.

Utilisez un appareil de montage approprié et assurez-vous de bien fixer les vis de l'appareil de montage pour éviter tout risque de blessure.

### 3.8 Powering On the System

#### WARNING / AVERTISSEMENT

To avoid risk of electric shock, this equipment must only be connected to supply mains with protective earth.

Pour éviter tout risque d'électrocution, cet équipement ne doit être connecté qu'au secteur avec mise à la terre de protection.

To power on the system, follow the steps below:

**Step 1:** Connect the power cord to the power adapter. Connect the other end of the power cord to a power source. Connect the power adapter to the power connector of the IASO-W10B-N6210. **NOTE:** The FSP FSP065-DHBM1 power adapter came with the IASO-W10B-N6210 is a forming part of the medical device.

**Figure 3-4: Power Input Connector and Power Button**

**Step 2:** Locate the power button on the bottom panel (Figure 3-4).

**Step 3:** Long press the power button to turn on the IASO-W10B-N6210.

**Step 4:** To force shutdown the panel PC, long-press the power button for 10 seconds.

### 3.9 Clear CMOS

If the IASO-W10B-N6210 fails to boot due to improper BIOS settings, the clear CMOS jumper clears the CMOS data and resets the system BIOS information. To do this, push the clear CMOS button for three seconds, then restart the system. The clear CMOS button location is shown in **Figure 3-5**.

Figure 3-5: Clear CMOS Button Location

### 3.10 Reset the System

The reset button enables user to reboot the system when the system is on. The reset button location is shown in **Figure 3-6**. Press the reset button to reboot the system.

Figure 3-6: Reset Button Location

### 3.11 System Maintenance

If the components of the IASO-W10B-N6210 fail, they must be replaced. Please contact the system reseller or vendor to purchase the replacement parts.

#### NOTE:

A user cannot replace a motherboard. If the motherboard fails it must be shipped back to IEI to be replaced. Please contact the system vendor, reseller or an IEI sales person directly.

# Driver Installation

---

## 4.1 Available Drivers

All the drivers for the IASO-W10B-N6210 are available on IEI Resource Download Center (<https://download.ieeworld.com>). Type IASO-W10B-N6210, and press Enter to find all the relevant software, utilities, and documentation.

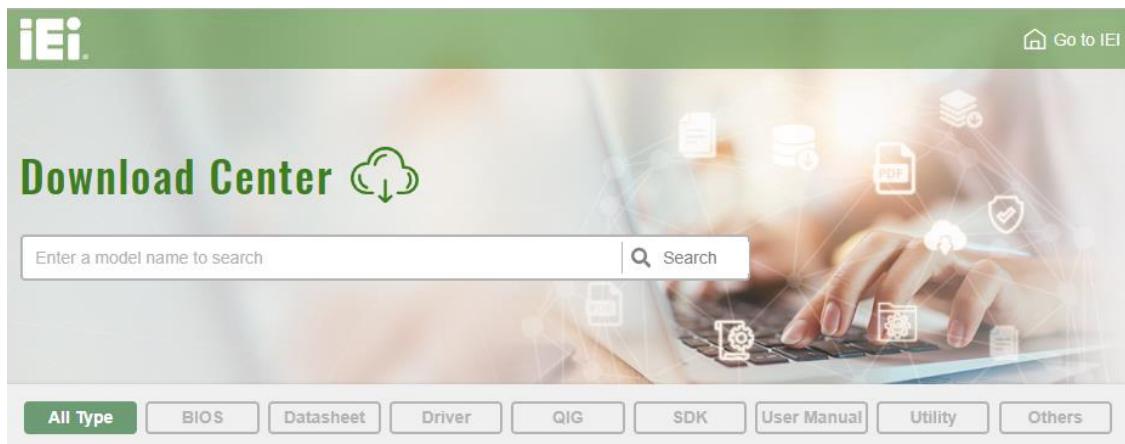

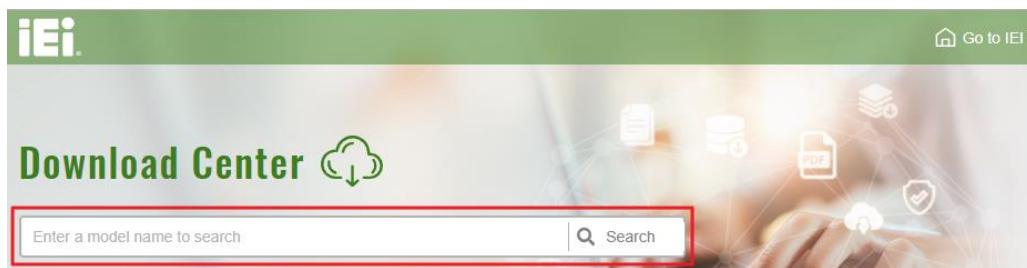

Figure 4-1: IEI Resource Download Center

## 4.2 Driver Download

To download drivers from IEI Resource Download Center, follow the steps below.

**Step 1:** Go to <https://download.ieeworld.com>. Type IASO-W10B-N6210, and press Enter.

**Step 2:** All product-related software, utilities, and documentation will be listed. You can choose **Driver** to filter the result.

## IASO-W10B-N6210 Medical Panel PC

# Regulatory Compliance

---

## DECLARATION OF CONFORMITY

This equipment is in conformity with the following EU directives:

- EMC Directive (2004/108/EC, 2014/30/EU)
- Low-Voltage Directive (2006/95/EC, 2014/35/EU)
- RoHS II Directive (2011/65/EU, 2015/863/EU)
- Medical Device Directive 93/42/EEC: EN 60601-1

If the user modifies and/or install other devices in the equipment, the CE conformity declaration may no longer apply.

If this equipment has telecommunications functionality, it also complies with the requirements of the Radio Equipment Directive 2014/53/EU.

---

### English

IEI Integration Corp. declares that this equipment is in compliance with the essential requirements and other relevant provisions of Directive 2014/53/EU.

### FCC WARNING

This equipment complies with part 18 of the FCC Rules.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

**UL CLASSIFIED**

The label on the product indicates this product complies with the requirements of ES 60601-1 (2005) + AMD (2012), CAN/CSA-C22.2 No. 60601-1:14.

**ROHS STATEMENT**

The label on the product indicates this product conforms to European (EU) Restriction of Hazardous Substances (RoHS) that set maximum concentration limits on hazardous materials used in electrical and electronic equipment.

**CHINA ROHS**

The label on the product indicates the estimated "Environmentally Friendly Use Period" (EFUP). This is an estimate of the number of years that these substances would "not leak out or undergo abrupt change." This product may contain replaceable sub-assemblies/components which have a shorter EFUP such as batteries and lamps. These components will be separately marked.

Appendix

B

# Product Disposal

---

## CAUTION / ATTENTION

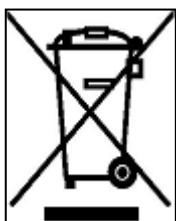

Risk of explosion if battery is replaced by an incorrect type. Only certified engineers should replace the on-board battery.

Risque d'explosion si la batterie est remplacée par un type incorrect. Seuls les ingénieurs certifiés doivent remplacer la batterie embarquée.

Dispose of used batteries according to instructions and local regulations.

Jetez les piles usagées conformément aux instructions et aux réglementations locales.

- Outside the European Union - If you wish to dispose of used electrical and electronic products outside the European Union, please contact your local authority so as to comply with the correct disposal method.
- Within the European Union—The device that produces less waste and is easier to recycle is classified as electronic device in terms of the European Directive 2012/19/EU (WEEE), and must not be disposed of as domestic garbage.

EU-wide legislation, as implemented in each Member State, requires that waste electrical and electronic products carrying the mark (left) must be disposed of separately from normal household waste. This includes monitors and electrical accessories, such as signal cables or power cords. When you need to dispose of your display products, please follow the guidance of your local authority, or ask the shop where you purchased the product. The mark on electrical and electronic products only applies to the current European Union Member States.

Please follow the national guidelines for electrical and electronic product disposal.

Appendix

C

# Maintenance and Cleaning Precautions

---

When maintaining or cleaning the IASO-W10B-N6210, please follow the guidelines below.

### **WARNING / AVERTISSEMENT**

If you dropped any material or liquid such as water onto the panel PC when cleaning, unplug the power cable immediately and contact your dealer or the nearest service center. Always make sure your hands are dry when unplugging the power cable.

Si vous avez fait tomber du matériel ou du liquide tel que de l'eau sur le Panel PC lors du nettoyage, débranchez immédiatement le câble d'alimentation et contactez votre revendeur ou le centre de service le plus proche. Assurez-vous toujours que vos mains sont sèches lorsque vous débranchez le câble d'alimentation.

### **CAUTION / ATTENTION**

- For safety reasons, turn-off the power switch and unplug the panel PC before cleaning.  
Pour des raisons de sécurité, éteignez l'interrupteur d'alimentation et débranchez le Panel PC avant de le nettoyer.
- Do not scratch or rub the screen with a hard object.  
Ne rayez pas et ne frottez pas l'écran avec un objet dur.
- Never use any of the following solvents on the medical panel PC. Harsh chemicals may cause damage to the cabinet and the touch sensor.  
N'utilisez jamais l'un des solvants suivants sur le Panel PC médical. Les produits chimiques agressifs peuvent endommager le boîtier et le capteur tactile.

**Thinner Spray-type cleaner, Benzene, Wax, Abrasive cleaner, Acid or Alkaline solvent.**

**Diluant nettoyant de type spray, benzène, cire, nettoyant abrasif, solvant acide ou alcalin.**

### C.1.1 Maintenance and Cleaning

Prior to cleaning any part or component of the IASO-W10B-N6210, please read the details below.

- To clean the IASO-W10B-N6210,
  - remove dirt with a lightly moistened cloth. Then wipe the external chassis with a soft dry cloth.
  - use 75% ethanol alcohol to clean the external chassis.
- Cleaning frequency: follow the cleaning method guidelines of the hospital.
- Except for the LCD panel, never spray or squirt liquids directly onto any other components.
- The interior of the IASO-W10B-N6210 does not require cleaning. Keep fluids away from the IASO-W10B-N6210 interior.

### C.1.2 Cleaning Tools

Some components in the IASO-W10B-N6210 may only be cleaned using a product specifically designed for the purpose. In such case, the product will be explicitly mentioned in the cleaning tips. Below is a list of items to use when cleaning the IASO-W10B-N6210.

- **Cloth** – Although paper towels or tissues can be used, a soft, clean piece of cloth is recommended when cleaning the IASO-W10B-N6210.
- **Water/Ethanol alcohol** – A cloth moistened with water or 75% ethanol alcohol can be used to clean the IASO-W10B-N6210.
- **Using solvents** – The use of solvents is not recommended when cleaning the IASO-W10B-N6210 as they may damage the plastic parts.
- **Cotton swaps** - Cotton swaps moistened with water are excellent tools for wiping hard to reach areas.
- **Foam swabs** - Whenever possible, it is best to use lint free swabs such as foam swabs for cleaning.

**Appendix**

**D**

# **Symbol Definitions**

---

## IASO-W10B-N6210 Medical Panel PC

The following symbols appear on the product, its labeling, or the product packing. Each symbol carries a special definition, as defined below:

	Direct current		Fragile, handle with care
	AC current		Keep dry
	Protective earth (ground)		This side up
	Date of manufacture		Indicates the manufacturer
	Stand-by		Refer to instruction manual
	Indicates proof of conformity to applicable European Economic Community Council directives and to harmonized standards published in the official journal of the European Communities.		
	Tested to comply with FCC Class B standard.		
	This symbol indicates that the waste of electronic equipment must not be disposed as unsorted municipal waste and must be collected separately. Please contact the manufacturer or other authorized disposal company to decommission your equipment.		
	This product is recyclable.		

**Appendix**

**E**

# **Watchdog Timer**

---

**NOTE:**

The following discussion applies to DOS. Contact IEI support or visit the IEI website for drivers for other operating systems.

The Watchdog Timer is a hardware-based timer that attempts to restart the system when it stops working. The system may stop working because of external EMI or software bugs. The Watchdog Timer ensures that standalone systems like ATMs will automatically attempt to restart in the case of system problems.

A BIOS function call (INT 15H) is used to control the Watchdog Timer.

INT 15H:

<b>AH – 6FH Sub-function:</b>	
AL – 2:	Sets the Watchdog Timer's period.
BL:	Time-out value (Its unit-second is dependent on the item "Watchdog Timer unit select" in CMOS setup).

**Table E-1: AH-6FH Sub-function**

Call sub-function 2 to set the time-out period of Watchdog Timer first. If the time-out value is not zero, the Watchdog Timer starts counting down. When the timer value reaches zero, the system resets. To ensure that this reset condition does not occur, calling sub-function 2 must periodically refresh the Watchdog Timer. However, the watchdog timer is disabled if the time-out value is set to zero.

A tolerance of at least 10% must be maintained to avoid unknown routines within the operating system (DOS), such as disk I/O that can be very time-consuming.

**NOTE:**

The Watchdog Timer is activated through software. The software application that activates the Watchdog Timer must also deactivate it when closed. If the Watchdog Timer is not deactivated, the system will automatically restart after the Timer has finished its countdown.

**EXAMPLE PROGRAM:**

```
; INITIAL TIMER PERIOD COUNTER  
  
;  
W_LOOP:  
;  
    MOV      AX, 6F02H      ;setting the time-out value  
    MOV      BL, 30          ;time-out value is 48 seconds  
    INT      15H  
  
;  
; ADD THE APPLICATION PROGRAM HERE  
;  
    CMP      EXIT_AP, 1      ;is the application over?  
    JNE      W_LOOP          ;No, restart the application  
  
    MOV      AX, 6F02H      ;disable Watchdog Timer  
    MOV      BL, 0           ;  
    INT      15H  
  
;  
; EXIT ;
```

Appendix

F

## Error Beep Code

---

## F.1 PEI Beep Codes

Number of Beeps	Description
1	Memory not Installed
1	Memory was installed twice (InstallPeiMemory routine in PEI Core called twice)
2	Recovery started
3	DXE IPL was not found
3	DXE Core Firmware Volume was not found
4	Recovery failed
4	S3 Resume failed
7	Reset PPI is not available

## F.2 DXE Beep Codes

Number of Beeps	Description
1	Invalid password
4	Some of the Architectural Protocols are not available
5	No Console Output Devices are found
5	No Console Input Devices are found
6	Flash update is failed
7	Reset protocol is not available
8	Platform PCI resource requirements cannot be met

**NOTE:**

If you have any question, please contact IEI for further assistance.

# Hazardous Materials Disclosure

---

## G.1 RoHS II Directive (2015/863/EU)

The details provided in this appendix are to ensure that the product is compliant with the RoHS II Directive (2015/863/EU). The table below acknowledges the presences of small quantities of certain substances in the product, and is applicable to RoHS II Directive (2015/863/EU).

Please refer to the following table.

Part Name	Toxic or Hazardous Substances and Elements									
	Lead (Pb)	Mercury (Hg)	Cadmium (Cd)	Hexavalent Chromium (Cr(VI))	Polybrominated Biphenyls (PBB)	Polybrominated Diphenyl Ethers (PBDE)	Bis(2-ethylhexyl) phthalate (DEHP)	Butyl benzyl phthalate (BBP)	Dibutyl phthalate (DBP)	Diisobutyl phthalate (DIBP)
Housing	O	O	O	O	O	O	O	O	O	O
Display	O	O	O	O	O	O	O	O	O	O
Printed Circuit Board	O	O	O	O	O	O	O	O	O	O
Metal Fasteners	O	O	O	O	O	O	O	O	O	O
Cable Assembly	O	O	O	O	O	O	O	O	O	O
Fan Assembly	O	O	O	O	O	O	O	O	O	O
Power Supply Assemblies	O	O	O	O	O	O	O	O	O	O
Battery	O	O	O	O	O	O	O	O	O	O
O: This toxic or hazardous substance is contained in all of the homogeneous materials for the part is below the limit requirement in Directive (EU) 2015/863. X: This toxic or hazardous substance is contained in at least one of the homogeneous materials for this part is above the limit requirement in Directive (EU) 2015/863.										

## G.2 China RoHS

此附件旨在确保本产品符合中国 RoHS 标准。以下表格标示此产品中某有毒物质的含量符合中国 RoHS 标准规定的限量要求。

本产品上会附有“环境友好使用期限”的标签，此期限是估算这些物质“不会有泄漏或突变”的年限。本产品可能包含有较短的环境友好使用期限的可替换元件，像是电池或灯管，这些元件将会单独标示出来。

部件名称	有毒有害物质或元素					
	铅 (Pb)	汞 (Hg)	镉 (Cd)	六价铬 (Cr(VI))	多溴联苯 (PBB)	多溴二苯醚 (PBDE)
壳体	O	O	O	O	O	O
显示	O	O	O	O	O	O
印刷电路板	O	O	O	O	O	O
金属螺帽	O	O	O	O	O	O
电缆组装	O	O	O	O	O	O
风扇组装	O	O	O	O	O	O
电力供应组装	O	O	O	O	O	O
电池	O	O	O	O	O	O

O: 表示该有毒有害物质在该部件所有物质材料中的含量均在 SJ/T11364-2014 與 GB/T26572-2011 标准规定的限量要求以下。

X: 表示该有毒有害物质至少在该部件的某一均质材料中的含量超出 SJ/T11364-2014 與 GB/T26572-2011 标准规定的限量要求。
